-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 33 and 35-36 are rejected under 35 U.S.C. 102(e) as being anticipated by Roberts et al (6171181).

Roberts et al disclose an apparatus having a polishing pad (14), at least one of polymethylmethacrylate and polycarbonate (col.1, line 46), a window (12) with first and second wear rates equal to greater (col. 4, lines 65-68 with the rates at least being equal) than the first wear rate with the window being flush and two polymers which are immiscible (see col.3, lines 64-68 and col.4, lines 1-3).

***Allowable Subject Matter***

3. claims 45-52 are allowed.
4. Claims 34 and 37-40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

**5. Applicant's arguments with respect to claims 33 and 35-36 filed 5/7/04 have been considered .**

a. The prior art was reconsidered and reference is still valid because it the window and pad are of the same material and will inherently have the same wear rate eventhough the term wear rate is not used. Note anything that is material has a wear rate regardless if it is mentioned or not. The fact that two wear rates are not mentioned does not overcome the fact the two elements each have a wear rate. Applicant arguments are not on point because the pad does have first and second wear rates and equal wear rates.

***Conclusion***
